Description

Dashboards consists of an admin and a user dashboard. It provides several portlets a user/admin can choose.

Get an overview of important information on the wiki.

In BlueSpice there are two Dashboards: the User-Dashboard and the Admin-Dashboard. Every user can adapt his dashboard according to his needs.

Usage / Features

Choose available portlets and integrate them in your dashboard.

Technical information

Configuration

Some aspects of this extension can be configured on [Special:BlueSpicePreferences](#), under section "Dashboards". Here wiki administrators can configure if clicking the site logo will lead to user's Dashboard through setting:

- Site logo links to user dashboard.

Rights (permissions)

This extension does not require any special rights. Every user with "edit" can change their Dashboard. Users cannot change other user's Dashboards.
