Description

BlueSpiceInsertFile extends Insert media dialog of [Manual:Extension/VisualEditor](#), providing advanced interface for inserting files and images to the page. It offers direct file upload from the edit mode.

Usage / Features

- Search for uploaded files and insert them.
- Filtering of files with a search box. Filtering files by namespace is possible, but requires the extension [NSFileRepo](#).
- Upload a new file, assign categories and insert it.
- Configuring file link parameters before inserting the file link of page: Set a caption for the link and choose a link type (link to media page or direct download link).

Technical information

Configuration

This extension offers no configurations.

Rights (permissions))

This extension does not require any special rights. Users must have "edit" permission to be able to insert a file.

Requirements

InsertFile requires [BlueSpiceFoundation](#).

User manual
