

## Setup:Release History

Since 2010 there have been 19 releases of BlueSpice. BlueSpice replaced the product HalloWiki at that time. BlueSpice was initially a collection of extensions that could be extended by individual software packages. In 2015, all existing extensions and individual modules were combined in one distribution.<sup>[1]</sup> Delivering BlueSpice together with MediaWiki was the next logical step.

Major release	Version	Date of issue	Files	Notable changes
<b>BlueSpice 3</b>	3.0	2018-10-17	<a href="#">Description</a> , <a href="#">Release Notes</a>	Major Release.  Notable changes: Social: an active interaction layer, Extended Search Responsive skin "Calumma" support interaction, Graphical list: new interface usability, MediaWiki VisualEditor based permissions: simplifies rights authentication stack: LDAP and
