Usage / Features

The extension was developed for marketing reasons, so that people come via a link to an included external page. It is delivered with every edition of a BlueSpice MediaWiki distribution.

The extension inserts a link *About BlueSpice* in the main navigation. The content of the external page is embedded via an *Iframe*.

This link can be deactivated in the *Config Manager*.

Technical information

Configuration

This extension needs no additional configuration.

Rights / permissions

This extension requires no special rights.

Requirements

BlueSpiceAbout requires *BlueSpiceFoundation*.

More info

For a detailed description, visit our *help page*.

GPL v3 only

Redirect to:

- GPL v3

Manual:Extension/BlueSpiceAbout

Each new installation of a BlueSpice wiki contains the link *About BlueSpice* in the main navigation. It links to the page *Special:AboutBlueSpice*.
Purpose

The extension was developed for marketing reasons, so that people come via a link to an included external page. The extension inserts a link About BlueSpice in the main navigation. The content of the external page is embedded via an iframe.

Deactivating the link

To remove the link from the main navigation:

1. Go to Global actions > Config Manager.
2. Select Searching and Navigation from the Feature list.
3. Deactivate the checkbox Show link "About BlueSpice" in the main menu.
Removing the link from the main navigation

Reference: BlueSpiceConfigManager

BlueSpiceConfigManager provides a special page that enables managing all global wiki settings in one place.

### Contents

1 Usage / Features .................................................................................................................................................. 5
2 Technical information ........................................................................................................................................ 6
   2.1 Rights (permissions) ................................................................................................................................... 6
   2.2 Requirements ............................................................................................................................................ 6
3 More info ............................................................................................................................................................ 6

### Usage / Features

Once on the special page, all settings will be grouped by logical groups. There are three ways of grouping the settings:

- Feature - grouping by type of functionality setting belongs to (searching, administration...)
- Extension - grouping by the extension the setting is coming from
- Package - grouping by the package extension providing the setting comes from.
Technical information

Rights (permissions)

This extension requires the right `bluespiceconfigmanager-viewspecialpage`, which is contained by default in the roles `maintenanceadmin`, `admin`, and `structuremanager`.

Requirements

`BlueSpiceConfigManager` requires `BlueSpiceFoundation`.
