**Description**

**BlueSpiceReview** is a workflowing tool for MediaWiki. It allows establishing a process of reviewing changes done to a page through a number of different reviewers.

**Usage / Features**

- Dialogue to create a review process.
- Start and end date for the workflow.
- Appoint reviewers.
- Information about a review process in the statebar.
- Notification by email.

**Technical information**

**Configuration**

Some aspects of this extension can be configured on Special:BlueSpiceConfigManager, under section "Review". Here wiki administrators can configure:

- Only the owner of a review can change it
- Workflow will be added to page history

**Rights (permissions)**

Users must have "review" permission in order to do the review.

**Requirements**

Review requires **BlueSpiceFoundation**.

**User manual**

For detailed description and usage, visit our **user manual**.

**Try free our BlueSpice**

**BlueSpiceDemo**.

**GPL v3 only**
Create a review

BlueSpiceReview is a workflow tool for MediaWiki. It allows assigning users to a page who then should complete their review within a certain timeframe.

The review page

All relevant info can be accessed from the Review flyout in the Quality management tools. This screen shows the review settings. If a review is running, users see a form to cast their votes. They can also expand the collapsed workflow settings to see the details for this review.
Starting a review

All users with sufficient permissions can start (or edit) a review on a page.

Review settings

Possible settings:

- **Start date of the review**

- **End date** - date on which review expires and that page is considered reviewed even if no action from reviewers occurred. It has no effect on the review itself.

- **Type** - review type determines what will happen to the page once the review has been successfully completed. The default type is *Approval* so that it can be used in conjunction with the Approval feature if this feature is activated in a namespace. Currently, BlueSpice only ships with this one type out-of-box.

- **Reviewers grid** - a list of all reviewers assigned to review a particular page. Reviewers can be added by clicking on the "Plus" button above the grid and typing in the name of the user in the dialog that pops up. Existing reviewers can be removed by selecting a reviewer and clicking on the "x" button.

- **Additional options** - depending on the wiki configuration, additional options may appear. See [BlueSpiceReviewExtended](#) for more information.

A review can only be started if at least one review has been added. Once all settings are set, click save to start the review. At this point, all assigned reviewers receive a notification (depending on their notification settings) that there is a review pending, and that they need to review it. During the review process, editing of the page is disabled unless the setting to allow editing has been activated.

Casting votes

When assigned reviewers visit that page, they are prompted to cast their vote.
The voting form consists of:

- **Comment box** - here reviewers can explain the reason for their vote.
- **Agree button** - by clicking this button, users cast a "yes" vote and agree to the proposed version of the page.
- **Disagree button** - by clicking this button, users cast a "no" vote and reject the proposed version.
- **Delegate button** - users can delegate their assignment to another user. This button opens a dialog for delegating the vote.

All votes along with comments are displayed under "Recent workflow steps" in the same flyout as the vote form and in the page history.

**Review overview**

The page Special:Review provides an overview of all ongoing reviews. It can be accessed from the main navigation under "Global actions", item "Review". Clicking on an individual review opens a list of all reviewers assigned to review this page along with their votes (indicated by the eye icon before the username). A grey eye icon means the reviewer has not yet reviewed the page, green means a "yes" vote, while red means a "no" vote.
Configuration

In the Config manager, you can change the following settings:

- **Only the owner of a review can change it**: If this is unchecked, any user with edit rights can update a workflow.

Related info

- Reference:BlueSpiceReview

Reference:BlueSpiceFoundation
The extension **BlueSpiceFoundation** is the interface between BlueSpice and Mediawiki. It provides basic functions for the individual BlueSpice extensions.

If you install any BlueSpice extension in a MediaWiki environment - that is outside of BlueSpice free or BlueSpice pro - the reference information for the extension will indicate if it requires BlueSpiceFoundation.

### Technical information

#### Requirements

This extension requires **ExtJSBase**.
