BlueSpiceUserInfo

**UserInfo** shows the profile information and the profile picture when hovering over a link to the corresponding user page.

**Usage / features**

This extension allows to quickly view a user's contact information without having to switch to the profile page. This information corresponds to information in the user's profile page and is handled by SocialProfile.
Technical information

Configuration

This extension offers no configurations.

Rights (permissions)

This extension requires no special permissions.

Requirements

This extension requires BlueSpiceFoundation.

Demo

You can see this functionality in our BlueSpice Demo when you hover over a username.

GPL v3 only

Redirect to:
- GPL v3

Reference:BlueSpiceSocialProfile

BlueSpiceSocialProfile provides the SocialEntity of type profile. Furthermore, the user page is converted into a complete user profile.
Usage / features

- the user page is converted into a complete user profile
- the content of the original user page is also shown as a description field below the profile section
- provides the page Special:SocialProfiles
- a user profile can be included in a page with the tag `<bs:socialentityprofile username="Testuser" rendertype="Short" />`
- users can update their profile information and upload a profile picture
