## Description

---

**Statistics** graphically displays the wiki's statistics, giving you the information clearly.

## Usage / Features

---

Statistics can be found via the Global Actions menu. Or directly via the special pages: Special:ExtendedStatistics

To set up a diagram, you only need to do three steps.

- Choose the database.
- Number of users.
- Number of pages.
- Number of content pages.
- Number of edits.
- Edits per user.
- Search queries.
- Set filters.
- Date range and interval (week, year, month, day).
- Mode: absolute, aggregated or list.
- Excluded users (e.g. WikiSysop).
- Create diagram.
- Diagrams can be exported as SVG or PNG file.

## Technical information

---

### Configuration

This extension offers no configurations.

### Rights (permissions)

This extension does not require any special rights.

### Requirements

Statistics requires [BlueSpiceFoundation](#).

### User manual

---

For detailed description and usage, visit our [user manual](#).

### Try free our BlueSpice
