Description

Teamwork is a software package to support quality assurance through workflows.

Usage / Features

If:

- Manuals and documentations need to be created in a specified process.
- Articles have to be finished on a set date.
- Work for the individual employee should be minimized by distributing editing bit by bit.
- Quality in your wiki should be enhanced by approvals and fixed contact persons.
- Cooperation in your wiki should be done "the professional way".

Technical information

Configuration
