Help us to improve BlueSpice!

After all, you're using the wiki and therefore you're the first to notice if something doesn't work. So: if you notice a problem, don't be mad, but report! Only then can we correct mistakes and make sure they don't happen again in a future release.

Your possibilities:

- Write an E-Mail to support@hallowelt.com
- Use our forums:
 - Bugreport - to tell us about bugs
 - Hilfe-Forum - for any other questions, problems and remarks

Become a part of the Community and help other users with your knowledge of Wikis and BlueSpice!
