About User manager

Administrators can access the User manager under *Global actions > Management > User Manager*. The User manager link opens the page `Special:UserManager`. It shows an editable list of all registered users.

Creating users

To create a user:

1. **Click** the "+"-button. This opens a dialog.

Special

User manager

The screenshot shows the 'User manager' interface with an 'Add user' dialog box open. The dialog has a 'Cancel' button on the top left and a 'Done' button on the top right. The fields in the dialog are: Username: Newuser; Password: masked with dots; Confirm password: masked with dots; Email: email@hallowelt.com; Real name: empty; Enabled: checked; Groups: a dropdown menu with 'Bureaucrats (bureaucrat)' selected. The background shows a table with columns for Username, Real name, Email, Groups, and Actions. The first row shows 'Testuser' with email 'demo@hallowelt.com' and group 'restrictedsysop'. There are navigation icons at the top and a 'Privacy policy' link at the bottom left.

2. **Enter** the user information in the dialog:

- *Username*: must be unique and cannot contain special characters
- *Password and Confirm password*: the password for the new user. Users can later change their passwords.
- *Email*: The email address of the user (optional)
- *Real name*: can be a duplicate of an existing user's real name (optional)
- *Enabled*: if checked, user account is active
- *Groups*: a user can be assigned to multiple groups. If no group is selected, the user belongs to the default group *user*.

3. Click **Done** to create the user account.

Editing users

The tools for editing a user are shown in the table grid when hovering over or selecting the user from the list.

     Export table ▾					
<input type="checkbox"/>	Username	Real name	Email	Groups	Actions
<input checked="" type="checkbox"/>	WikiSysop			bureaucrat, editor, sysop	    

- *Key icon*: change password
- *People icon*: assign groups to this user
- *Block icon*: disable/enable user. Disabling does not delete the account.
- *Wrench icon*: edit email and real name
- *"x" icon*: Delete user. This action is irreversible.

Tip: User groups can be set for multiple users at the same time by selecting the users and clicking on the "groups" icon above the grid.

Inactive users

By default, the list displays users with active user accounts (enabled).

To view inactive users:

1. **Click** on the table header (any column).
2. **Select** "Columns", then select "Enabled". This will add additional column "Enabled" to the grid.
3. **Click** on the header of this column and **select** *Filter > Show all deactivated users*.

Technical details

The extension **BlueSpiceUserManager** provides this visual interface for managing users.
