Extension: Loops

→ [all extensions](#)

Overview			
Description:	Provides parser functions for performing loops.		
State:	stable	Dependency:	MediaWiki
Developer:	David M. Sledge, Daniel Werner	License:	-
Type:	MediaWiki	Category:	Infrastructure
Edition:	BlueSpice free, BlueSpice pro, BlueSpice Farm, BlueSpice Cloud	Version:	4.1+
For more info, visit Mediawiki .			

The extension provides the following loop parser functions:

- `#while`
- `#dowhile`
- `#loop`
- `#forargs` (experimental)
- `#fornumargs` (experimental)

Some of the parser functions provided by this extension require the [ParserFunctions](#) as well as the [Variables](#) extension to be installed first. Both extensions are bundled with all BlueSpice editions.
