### About the page information

The most important meta information about a page is displayed on the page information flyout that is part of the quality management tools of the page.

The following information is available here:

- Time of the last edit
- Last editor
- Number of views
- The categories the page belongs to. These can be edited directly from here.
- Templates used on the page
- Subpages of a page (visible only when the page actually has subpages)

### Configuration

The page information in the Quality management toolbar is provided by the extension **BlueSpiceArticleInfo**.

In the Config manager, you can change the following settings:

*BlueSpiceArticleInfo*, together with *BlueSpiceAuthors* and *BlueSpiceReaders* is part of the *Page information* in the quality management tools.

- **Update interval in seconds:** Sets the refresh rate for the "Last edit" value. By default, this date is updated every 10 seconds via JavaScript.
