Functionality

Users with the right *groupmanager-viewspecialpage* (in roles: *admin*, *maintenanceadmin*, *accountmanager*) can access the page *Special:GroupManager* in the menu *Global actions > Administration > Groups*.

An administrator can go to *Global actions > Management > Group manager*. This opens the page *Special:GroupManager*.

The screenshot displays the 'Group manager' interface. At the top, there are three icons: a plus sign (+), a wrench, and an 'x'. To the right of these icons is a dropdown menu labeled 'Export table'. Below the icons is a table with the following structure:

<input type="checkbox"/>	Group	Actions
<input type="checkbox"/>	QM_editor	
<input type="checkbox"/>	QM_reviewer	
<input type="checkbox"/>	editor	
<input type="checkbox"/>	groupfeedback	
<input type="checkbox"/>	reviewer	
<input type="checkbox"/>	sysop	

At the bottom of the table, there are navigation controls: '<<' '<' 'Page 1 of 1' '>' '>>' and a refresh icon. To the right of these controls, it says 'Displaying 1 - 6 of 6'.

The group manager has the following features:

- **Viewing groups:** All existing groups in the wiki are listed.
- **Creating new groups:** Clicking on the "plus" button opens a dialog for adding a new group.
- **Renaming groups:** A group can be renamed by selecting it and then clicking the wrench icon. System groups and groups declared by other extensions cannot be renamed.
- **Deleting a group:** A group can be deleted by selecting it and then clicking the "x" button. System groups cannot be deleted.

Assigning roles and users to groups

- To assign users to groups, use the [User manager](#).
- To assign roles (permissions) to groups, use the [Permission manager](#).
