Namespace-CSS Manager

To add or overwrite the styles for a namespace:

1. **Click** on the source page link for the namespace.
2. **Enter** your CSS-code directly in this page. Example: *MediaWiki:User_css* affects all pages in the namespace *User*.
3. **Save** the page and review your changes on the pages in the affected namespace.

BlueSpice 4.2+

To apply specific styling to a namespace, you have to apply it directly in the page *MediaWiki:Common.css*.

For example, to apply a different navigation background color to the namespace Manual:

1. Go to the [Namespace manager](#) page, to find the id of the namespace:
2. Go to *MediaWiki:Common.css* and add the namespace id as a css class to your style:

```
.ns-3002 #sb-pri-cnt {background: #A9DFBF} /* give the namespace 3002 a green navigation background*/
```
