Reference:BlueSpicePageAccess

Extension: BlueSpicePageAccess

all extensions

Overview			
Description:	Controls access on page level		
State:	stable	**Dependency:**	BlueSpice
Developer:	HalloWelt	**License:**	GPL-3.0-only
Type:	BlueSpice	**Category:**	Security
Edition:	BlueSpice pro, BlueSpice free, BlueSpice Farm, BlueSpice Cloud	**Version:**	4.1+

Features

BlueSpicePageAccess allows only a certain user group access to the page.

The restriction is achieved by inserting the tag *pageaccess* on a page. Access restriction per page is done on a group basis. "Access" here means all actions, including read and edit. To avoid that this mechanism accidentally blocks access for all users, users in the group "sysop" always have access to the page.

Example: `<bs:pageaccess groups="editor" />`

Technical Information

This information applies to BlueSpice 4. Technical details for BlueSpice Cloud can differ in some cases.

Requirements

MediaWiki: 1.36.0
BlueSpiceFoundation: 4.1

Integrates into

- BlueSpiceVisualEditorConnector
