An additional navigation menu can be created and adapted by administrators. For this purpose, the page

MediaWiki:CustomMenu/Header

 is created by a user with *admin* or *edit-interface* permissions.

Syntax

Menus are created using the unordered list syntax. The non-clickable menu heading is always a main level (*), the actual links a sub-level (**). Further sub-levels are not possible. Example:

```
*BlueSpice
** BlueSpice Homepage|https://bluespice.com
** News|https://bluespice.com/category/news-know-how/
*Hallo Welt!
** Homepage|https://https://hallowelt.com/
*Social Media
** Twitter BluesSpice|https://twitter.com/BlueSpiceTweets
** Twitter DACH|https://twitter.com/BlueSpice_DACH
** Facebook BlueSpice|https://www.facebook.com/BlueSpice.MediaWiki
** Facebook BlueSpiceDEU|https://www.facebook.com/BlueSpiceDACH
** Facebook Hallo Welt!|https://www.facebook.com/hallowelt.gmbh
```

Example: Link to a wiki page

A link to the wiki page 'Main page' with the label "Testlink":

```
** Testlink | Main page
```

Example: Link to an external website

A link to the website "bluespice.com" with the label "BlueSpice Homepage"

```
** BlueSpice Homepage|https://bluespice.com
```
