Inviting a user

The invitation page opens via the email icon in the user administration.

An invitation has the following features:

- Invited users receive an invitation email.
- The invitation email contains a link to the wiki. The invited person can use this link to choose a username and password.
- After the user account has been created by the invited person, there is no special group assignment. The permissions of the general group "user" are assigned to the user account.

Invitation page

The invitation page allows to send an email invitation to new users.

Date	Email	Inviter	Signed up	Groups	
15:04, 20 November 2020	<input type="text" value="myemail@hallowelt.com"/>	Bluespice			<input type="button" value="Add"/>

Invite a user

After providing an email address and clicking *Add*, an email is sent to the invited user. The invited person can create their own login information by following the sign-up link in the email invitation.

Hello,

Bluespice has invited you to sign up to My Company.

You can sign up at <https://mycompany.bluespice.cloud/w/index.php?title=Special:CreateAccount&invite=e6abfe199f93cb915e5243ce0dbf079cab7fc8ff>

Email notification to invited user

When the invited user clicks on the provided sign-up link, the page *Create account* appears in the browser. The user can now create a wiki account.

The screenshot shows a user registration form with the following fields and content:

- Username:** A text input field containing the text "hwmlr".
- Password:** A password input field with masked characters ".....".
- Confirm password:** A password input field with masked characters ".....".
- Email address (optional):** A text input field containing the email address "myemail@hallowelt.com".
- Real name (optional):** A text input field containing the name "Kelly Smith".
- Real name is optional. If provided, it may be used to give you attribution for your work.** A line of text below the real name field.
- Create your account** A blue button with white text.

Below the form, the text "User creates account" is displayed.

After clicking *Create your account*, the user is asked to accept the privacy policy and terms of service.

The screenshot shows a terms acceptance screen with the following content:

- To continue, please accept the following terms** A heading in a yellow box.
- ☒ **I accept the [privacy policy](#) of this site** A checkbox with a blue checkmark and a link to the privacy policy.
- ☒ **I accept the [terms of service](#) of this site** A checkbox with a blue checkmark and a link to the terms of service.
- Continue account creation** A blue button with white text.

Below the form, the text "User accepts terms" is displayed.

After checking both checkboxes, the user can finish the account creation process and is automatically logged in.

Deleting invitations

As long as a user has not created an account, the invitations can be deleted. Simply click on the delete button next to the invitation.

Date	Email	Inviter	Signed up	Groups	
13:22, 24 November 2020	<input type="text"/>	WikiSysop			Add
13:21, 24 November 2020	rmiller@hallowelt.com	WikiSysop			Delete
13:22, 24 November 2020	sbrzenski@hallowelt.com	WikiSysop			Delete

Delete invitations

Creating user accounts on behalf of users

If an administrator sends out invitations to users to create their own accounts, users can freely choose their username and passwords. As an alternative, administrators can directly create users accounts via the page *Special:CreateAccount*. In this process, users receive an email with a random temporary password, but with a username that was created by the administrator.

InviteSignup allows wiki owners to invite users to a restricted wiki.

- adds the page Special:InviteSignup to the wiki
- users with invitesignup permission can send email invitations
- invited users can create their own account
- inviter has option to set up additional user groups to which the invitees will be added after account creation
