## Inviting a user

The invitation page opens via the email icon in the user administration.

An invitation has the following features:

- Invited users receive an invitation email.
- The invitation email contains a link to the wiki. The invited person can use this link to choose a username and password.
- After the user account has been created by the invited person, there is no special group assignment. The permissions of the general group "user" are assigned to the user account.

## Invitation page

The invitation page allows to send an email invitation to new users.

Date	Email	Inviter	Signed up	Groups	
15:04, 20 November 2020	<input type="text" value="myemail@hallowelt.com"/>	Bluespice			<input type="button" value="Add"/>

Invite a user

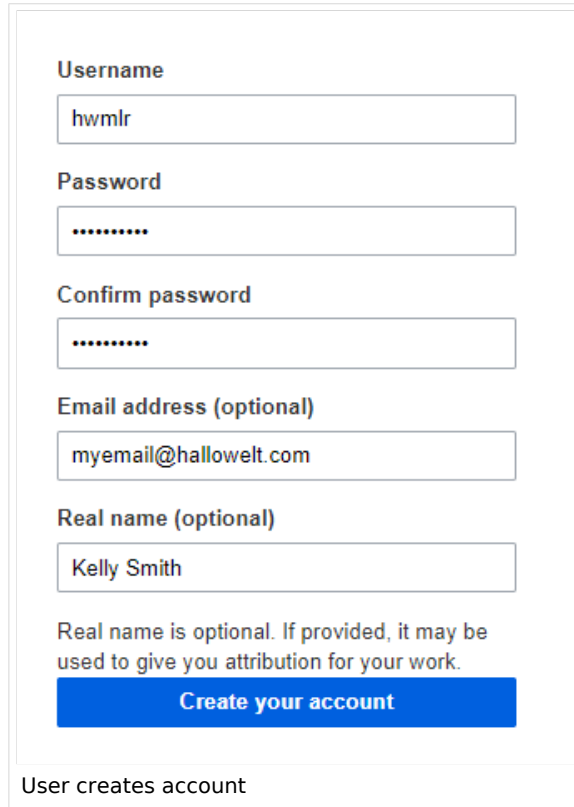

After providing an email address and clicking *Add*, an email is sent to the invited user. The invited person can create their own login information by following the sign-up link in the email invitation.

Hello,

Bluespice has invited you to sign up to My Company.  
You can sign up at <https://mycompany.bluespice.cloud/w/index.php?title=Special:CreateAccount&invite=e6abfe199f93cb915e5243ce0dbf079cab7fc8ff>

Email notification to invited user

When the invited user clicks on the provided sign-up link, the page *Create account* appears in the browser. The user can now create a wiki account.

A screenshot of a user account creation form. The form contains several input fields: 'Username' with the value 'hwmlr', 'Password' and 'Confirm password' both masked with dots, 'Email address (optional)' with the value 'myemail@hallowelt.com', and 'Real name (optional)' with the value 'Kelly Smith'. Below the 'Real name' field is a note: 'Real name is optional. If provided, it may be used to give you attribution for your work.' At the bottom of the form is a blue button labeled 'Create your account'. Below the form, the text 'User creates account' is displayed.

Username

hwmlr

Password

.....

Confirm password

.....

Email address (optional)

myemail@hallowelt.com

Real name (optional)

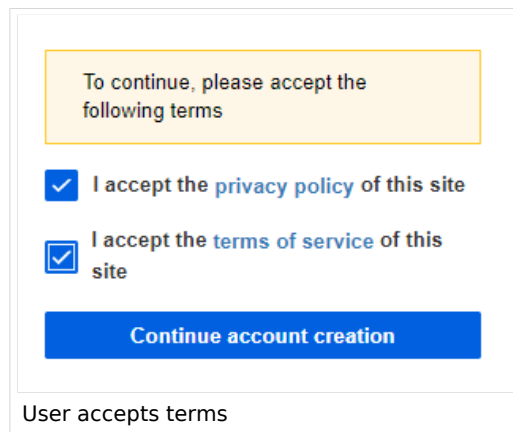

Kelly Smith

Real name is optional. If provided, it may be used to give you attribution for your work.

Create your account

User creates account

After clicking *Create your account*, the user is asked to accept the privacy policy and terms of service.

A screenshot of a terms acceptance form. It features a yellow box with the text 'To continue, please accept the following terms'. Below this are two checkboxes, both of which are checked. The first checkbox is labeled 'I accept the privacy policy of this site' and the second is labeled 'I accept the terms of service of this site'. At the bottom is a blue button labeled 'Continue account creation'. Below the form, the text 'User accepts terms' is displayed.

To continue, please accept the following terms

☒ I accept the [privacy policy](#) of this site

☒ I accept the [terms of service](#) of this site

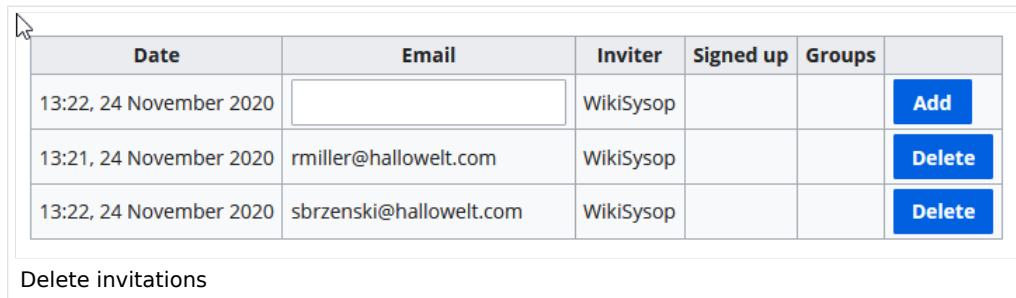

Continue account creation

User accepts terms

After checking both checkboxes, the user can finish the account creation process and is automatically logged in.

## Deleting invitations

As long as a user has not created an account, the invitations can be deleted. Simply click on the delete button next to the invitation.

Delete invitations

## Creating user accounts on behalf of users

If an administrator sends out invitations to users to create their own accounts, users can freely choose their username and passwords. As an alternative, administrators can directly create users accounts via the page *Special:CreateAccount*. In this process, users receive an email with a random temporary password, but with a username that was created by the administrator.
