Insert a table

In VisualEditor, choose "Insert > Tables" to insert a table in a page:

After entering the rows and columns, an empty table appears with the edit menu:

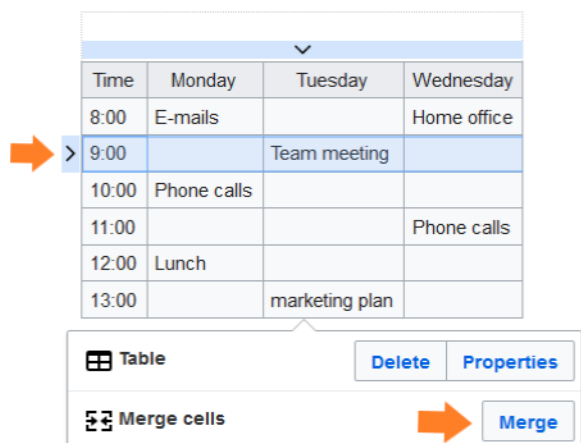

When the mouse rests on a symbol, the respective function is displayed.

Double-click in the cells to insert text:

Time	Monday	Tuesday	Wednesday
8:00	Emails		Home office
9:00		Team meeting	
10:00	Phone calls		Phone calls
11:00

Merge rows and columns

When you click in a row, an arrow appears at the left edge of the row and at the top of the column. To connect the cells in a row or a column, click on the respective arrow and then in the edit menu on "Merge":

You can also connect individual cells. Hold down the Shift key and click in two or more adjacent cells. Then connect the cells. The cells must be adjacent in a row or in a column so that they can be connected.

The visual editor makes it easy to format content as a table. The following alternatives for creating tables exist:

Tables can also be inserted as a csv file on a page (just drag the CSV file onto the page in edit mode)
Complex tables can alternatively be attached to the page as an xlsx file.
