Manual:Extension/Workflows/Activity/ApprovePage

Description

The ApprovePage activity will set the status of a page from *draft* to *approved* status. Flagging will be done with a special user-context to avoid permission errors. This activity can only be used with pages that have the approval feature ([FlaggedRevs](#)) enabled.

Short profile	
Name	ApprovePage
Async	Yes
BPMN type	bpmn:Task
BPMN Extension Element "wf:type"	approve_revision

Properties

Name of property	Description	Type
