Create a form

With the page *Special:CreateForm*, we now create the data entry form.

Page Forms

- [Create a category](#)
- [Create a class](#)
- [Create a form](#)
- [Create a property](#)
- [Create a template](#)
- [Forms](#)
- [Run query](#)
- [Start of form](#)
- [Templates](#)

Create a form

Creating the form

1. On the "Create a form" page, enter a name for your new form. Since we create it for template *Customer data*, we give the form the same name (1). Select the template Customer data from the choice menu and click *Add* (2).

Form name (the form is usually given the same name as its main template):

Customer data 1

Add elements

Add template: Customer data Add 2

Select template

2. The customer data fields from the template Customer data are automatically integrated in the form. To facilitate the data entry for the date field, change the input type of the field *firstcontact* to *datepicker*. (1) Then, click *Save page* (2).

Field: firstcontact

This field defines the property Has First contact, of type Date.

Form label:

Input type: 1

Add elements

Add template: Before:

Add section:

Before:

2

Selecting the input type

Now the form is available for data entry. It can be found in the namespace *Form*.

Using the form

When we create a new customer page, we can now use the form page to create the page and to automatically include the customer data template in the page. The form page has the name *Form:Customer data*.

1. To create a customer page, enter a page name in the form field (1) and click *Create or edit* (2).

Customer data

This is the "Customer data" form. To create a page with this form, enter the page name below; if a page with that name already exists, you will be sent to a form to edit that page.

Hallo Welt GmbH 1 Create or edit 2

Create a customer page

2. Enter the customer data (1). You can additionally create some free text (2). Click *Save page* after editing the page (3).

Create Customer data: Hallo Welt GmbH

Location: 1 Regensburg

Contact person: 1 Jane Doe

First contact: 21/12/2020 

Free text: 2

Hallo Welt! was founded to make the technology and concept of Wikipedia applicable for professional usage.

Since 2007 Hallo Welt! builds collaborative platforms of knowledge for organisations – especially solutions for knowledge management, online documentation and quality management.

Summary:

☐ This is a minor edit ☐ Watch this page

3 Save page Show preview Show changes Cancel

Dateneingabe während Seitenerstellung

Now you have created a customer page that collects customer data and shows the entered data on the page.

(Pages): Hallo Welt GmbH

Location	Regensburg
Contact	Jane Doe
First contact	2020/12/21

Hallo Welt! was founded to make the technology and concept of Wikipedia applicable for professional usage.

Since 2007 Hallo Welt! builds collaborative platforms of knowledge for organisations – especially solutions for knowledge management, online documentation and quality management.

Customer page with semantic template

Note: You can [customize the template style](#) later. First, you should integrate the form with the customer pages.

Next step

As the next step, we add the form edit mode option to pages that include the *Customer data* template.

Edit pages in form edit mode
