## Usage / Features

---

The most important information, like the time of the last edit and user who last edited the page, is displayed directly in the view mode of a page.

The information related to the page is shown in a flyout and are accessible from the page tools.

The following information is included:

- Time of the last edit
- Last editor
- Number of views
- Categories the page
- Templates used on the page
- Subpages of a page (visible only when the page actually has subpages)

## Technical information

---

### Configuration

---

This extension has no configuration options.

### Rights (permissions)

---

This extension requires no special rights, all users with "read" permission for the page can see the page information.

### Requirements

---

BlueSpiceArticleInfo requires BlueSpiceFoundation.

### More info

---

For a detailed description, visit our help page.

### Demo

---

You can review the page information on any page in the BlueSpice Demo.
