| <b>Type:</b>        | BlueSpice                                                      | <b>Category:</b>   | Administration               |
| <b>Edition:</b>     | BlueSpice pro, BlueSpice free, BlueSpice Farm, BlueSpice Cloud | <b>Version:</b>    | 4.1+                         |

### Features

**AboutBlueSpice** offers a wiki page to provide additional information from an external source, e. g. a page from a content management system.

The extension was developed for marketing reasons, so that people come via a link to an included external page. It is delivered with every edition of a BlueSpice MediaWiki distribution.

The extension inserts a link *About BlueSpice* in the main navigation. The content of the external page is embedded via an [iframe](#).

This link can be deactivated in the [Config manager](#).

### Technical Information

This information applies to BlueSpice 4. Technical details for BlueSpice Cloud can differ in some cases.

### Requirements

MediaWiki: 1.36.0  
BlueSpiceFoundation: 4.1

## Integrates into

## Special pages

| <a href="#">? View user help page</a> |                                                                                            |                    |                              |

## Features

---

**BlueSpiceConfigManager** provides a special page that enables managing all global wiki settings in one place.

Once on the special page, all settings will be grouped by logical groups. There are three ways of grouping the settings:

- Feature - grouping by type of functionality setting belongs to (searching, administration...)
- Extension - grouping by the extension the setting is coming from
- Package - grouping by the package extension providing the setting comes from.

## Technical Information

---

This information applies to BlueSpice 4. Technical details for BlueSpice Cloud can differ in some cases.

### Requirements

MediaWiki: 1.36.0  
BlueSpiceFoundation: 4.1

### Integrates into

### Special pages

- BlueSpiceConfigManager

### Permissions

| Name                                   | Description                                                                | Role                                      |
|----------------------------------------|----------------------------------------------------------------------------|-------------------------------------------|
| bluespiceconfigmanager-viewspecialpage | Access to the special page <a href="#">Special: BlueSpiceConfigManager</a> | admin, maintenanceadmin, structuremanager |

### Configuration

| Name                        | Value                                                        |
|-----------------------------|--------------------------------------------------------------|
| ConfigManagerLogExcludeList | array ( 0 => 'DistributionConnectorEventBusEventServices', ) |
