Notifications

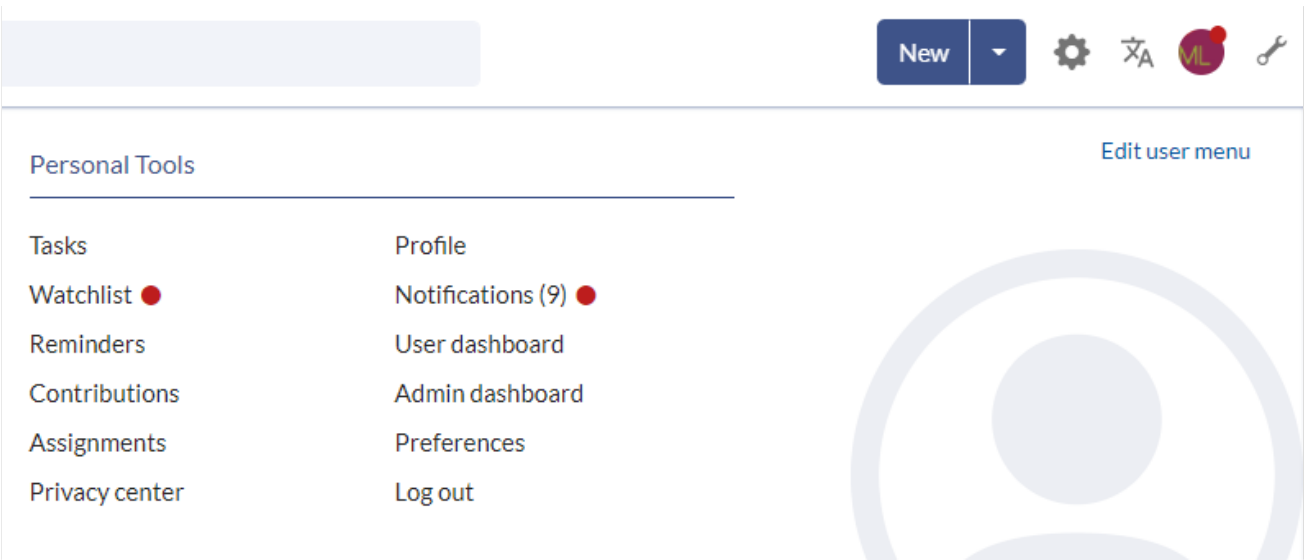

Registered wiki users receive notifications for a variety of changes to the wiki. Users can set their notification preferences as needed.

Contents

1 Viewing notifications 10
2 Notification settings 11

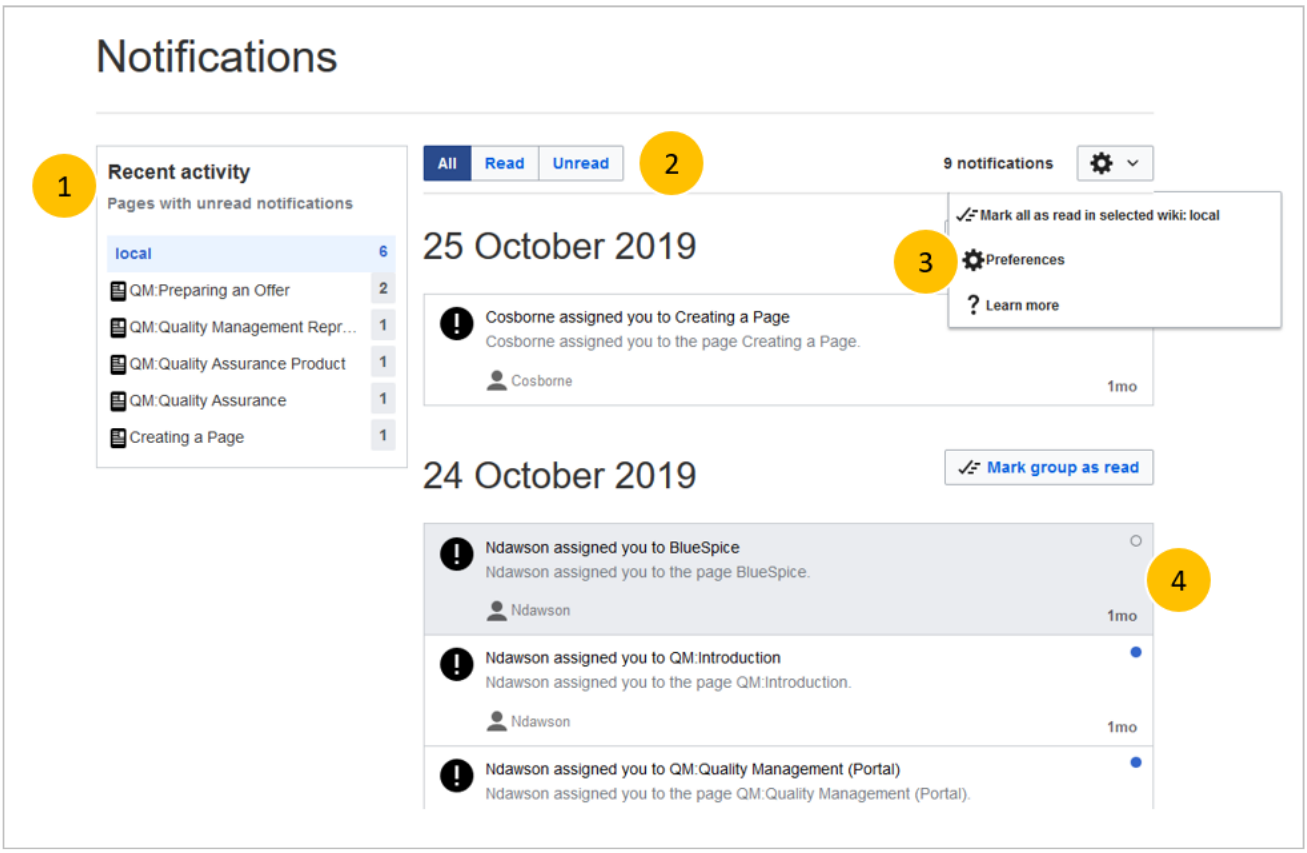

Viewing notifications

To access the notifications page, click on your profile picture (1) and then click on *Notifications* in the Personal Tools (2). A red indicator is displayed if there are new notifications waiting.

Link to the notifications page

The notifications page shows all incoming notifications.

Notifications page

The following features are available:

1 - Recent activity: The filter lists notifications by page. Clicking on a page name will only show the notifications for that page.

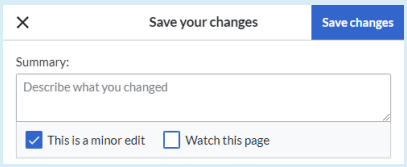

2 - Status filter: You can view all notifications as well as read or unread notifications.

3 - Settings menu: Here you can go to the settings page to choose the type of notifications you want to receive.

4 - Notification: Clicking on a notification will mark it as read. Alternatively, you can click the blue status icon. Read notifications are marked with a dark background and a blank status icon.

Notification settings

Note:
- You are not notified about your own edits.
- No notifications are generated for page changes marked as "minor edit".

The following settings are available:

- **E-Mail options:**
  - *Send me:* Frequency of notifications (none, immediately, daily, weekly)
  - *Send to:* If you enter or change the e-mail address here, it will be changed for the entire wiki (i.e., under your profile data).
  - *Email format:* (HTML or plain text)
- **Notify me about these events**: E-mail and wiki notifications for different events can optionally be activated or deactivated here. You can see a description of the event by clicking on the info icon. Grayed out checkboxes cannot be activated or deactivated and are set the same for all users.
- **Notifications on namespace events** (always both in e-mail and in the wiki):
  - when creating pages in a namespace when editing pages in a namespace
- **Notifications on categories** (always both in e-mail and in the wiki):
  - when a page is added or removed from a category listed here
  - when a change is made to a page associated with that category
