Features

PageAssignments allows to assign pages to single users or user groups. Assigned users are notified about assignment changes via email or internal notifications.

- Assign responsible users to a page.
- Assign individual users or groups.
- The responsible editor(s) for the page can be viewed in the flyout "Page assignments" in the quality management tools.
- Users can view their assignments on the page *Special:PageAssignments*.
- Users with *admin*, *maintenanceadmin* or *reviewer* rights can manage all assignments on the page *Special:ManagePageAssignments*.
- Assigned users can be shown directly in the title area of the page if the default setting is changed to:

```
$GLOBALS['bsgPageAssignmentsPageHeaderLimit'] = 25;
```

Assign all users (with option to exclude some users)

To activate the option to assign all users to a page, a group *everyone* can be created. For this, the following code needs to be set in `<bluespice-installationpath>/extensions/BlueSpicePageAssignments/extension.json`:

```
"PageAssignmentsActivatedTypes": {  
    "value": [  
        "user",  
        "group",  
        "everyone"  
    ],  
}
```

This allows users to add the group everyone to a page assignment. Individual users can be excluded from the assignment by creating the file *MediaWiki:PageAssignments-everyone-blacklist*. Users can be added to this blacklist with using line breaks.
