Description

BlueSpicePagesVisited creates a list of a user's recently visited pages.

Usage / Features

- Can be bound to any page that is editable.
- Also in edit mode, the display should be available in the widget and focus area.
- Only own visited pages can be viewed.

Technical information

Configuration

This extension has no configuration options.

Rights (permissions)

This extension does not require any special rights. Users must have "read" permission to see the list.

Requirements

PagesVisited requires BlueSpiceFoundation.
