## Description

**BlueSpiceReaders** displays the visitors of a wiki article.

## Usage / Features

- The readers of an article are displayed in the flyer "Seiteninformationen" of the right toolbox in the tab "Quality Management", only logged in visitors will be shown.
- The Reader Special page (Special:Reader/PageTitle) creates a list of all visitors to an article, along with the user name and date of the last visit. Anonymous visitors are also listed here with their IP address.

## Technical background

---

## Configuration

---

Some aspects of this extension can be configured under `Special:BlueSpiceConfigManager` in the Personalization section. Here wiki administrators can configure:

- Number of readers to be displayed.

## Rights (permissions)

---
