View user help page			

Features

The extension **Readers** displays the readers of a wiki page to users with admin rights.

- Displays the readers of a page in the page information flyout of the page tools.
- The special page *Special:Readers/PageTitle* creates a list of all readers of a page along with the user name and the date of the last visit.
- By default, only users with role *admin* can view this information.

Wiki administrators can set the number of readers to be shown in the page information flyout in the Config manager.

Technical Information

This information applies to BlueSpice 4. Technical details for BlueSpice Cloud can differ in some cases.

Requirements

MediaWiki: 1.37.0

Accessibility

Test status:	2-testing complete
Checked for:	Web, Authoring tool
Last test date:	2022-08-05
WCAG level:	AA
WCAG support:	partially supports (workaround: no)
Comments:	keyboard access works. Screenreader: Extjs: Pagination in grids not announcing button labels at top and pagination buttons at bottom; switching between browse/focus modes enables finding out how many pages there are and moving to the next page. erm:27716
Extension type:	core
Extension focus:	admin
