Features

The extension **Readers** displays the readers of a wiki page to users with admin rights.

- Displays the readers of a page in the page information flyout of the page tools.
- The special page *Special:Readers/PageTitle* creates a list of all readers of a page along with the user name and the date of the last visit.
- By default, only users with role *admin* can view this information.

Wiki administrators can set the number of readers to be shown in the page information flyout in the [Config manager](#).
