ConfirmEdit

The **ConfirmEdit** extension enables the user of placing various CAPTCHA methods on the page to prevent spambots from editing the page.

For more information visit [MediaWiki](#).

Completely Automated Public Turing test to tell Computers and Humans Apart. Generally, this is used to check who entered text in Internet forms because robots are often misused here.

GPL v2+

Redirect to:

- [GPL v2](#)

ConfirmEdit

Enables the user to place various CAPTCHA methods to protect the wiki from spambots.
