The '''Echo''' extension provides an in-wiki notification system that can be used by other extensions. [https://www.mediawiki.org/wiki/Special:MyLanguage/Extension:Thanks Thanks] and [https://www.mediawiki.org/wiki/Special:MyLanguage/Extension:Flow Flow] are two MediaWiki extensions that make use of Echo. For info about notifications in BlueSpice, visit the [[Manual:Extension/Echo|notifications help page]].
