Accessibility

Test status:	2-testing complete
Checked for:	Authoring tool
Last test date:	2022-08-08
WCAG level:	AA
WCAG support:	supports
Comments:	<p>Save button can only be activated through tabbing. If it is "far away", it is useful to use browser's "find" functionality to focus on the button.</p> <p>No screen reader testing, since here you set the color scheme and fonts for the skin. Vision seems to be a requirement to accomplish this.</p>

Extension type:	core
