## Accessibility

<b>Test status:</b>	2-testing complete
<b>Checked for:</b>	Authoring tool
<b>Last test date:</b>	2022-08-08
<b>WCAG level:</b>	AA
<b>WCAG support:</b>	supports
<b>Comments:</b>	<p>Save button can only be activated through tabbing. If it is "far away", it is useful to use browser's "find" functionality to focus on the button.</p> <p>No screen reader testing, since here you set the color scheme and fonts for the skin. Vision seems to be a requirement to accomplish this.</p>
