| For more info, visit **Mediawiki.** | | | |

## Features

Note:This extension is no longer bundled with BlueSpice free starting v. 4.2.

The extension **PluggableAuth** provides a framework for creating authentication and authorization extensions. PluggableAuth provides the shared code necessary to implement these extensions, which are referred to as authentication plugins and authorization plugins. PluggableAuth must be used with exactly one authentication plugin and zero or more authorization plugins.
