The **RSS feed** extension *renders* ("displays") one or more RSS feeds on a wiki page in a standard or user-definable format. Since version 2.00, the extension is compatible with [Extension: WikiArticleFeeds](#) which *generates* RSS or ATOM feeds from MediaWiki pages (authoring tool).

Use one section between `<rss>`-tags for each feed. The rss element may contain parameters if you provide them as attributes to the rss element.
