

## Semantic MediaWiki

**Semantic MediaWiki** (SMW) is an extension for managing structured data in your wiki and for querying that data to create dynamic representations: tables, timelines, maps, lists, etc. The actual homepage of Semantic MediaWiki, including user documentation in multiple languages, is [semantic-mediawiki.org](https://semantic-mediawiki.org). There are various other pages in the MediaWiki and Wikipedia space related to SMW, but the homepage is the most up-to-date source of information.

There are a large number of "spinoff" extensions that require the presence of Semantic MediaWiki; see the category [Semantic MediaWiki extensions](#) for the full list (some of these extensions are obsolete).

Makes the wiki more accessible to machines and humans.

For more information please visit [MediaWiki](#).

### Semantic MediaWiki

allows users to add structured data to wiki pages through simple wikitext markup that turns links to other pages and data values in a page into meaningful properties. With this information, SMW helps to search, organize, browse, evaluate, and share the wiki's content.

<b>Status:</b>	stable
<b>Developer:</b>	Markus Krötzsch, Jeroen De Dauw, James Hong Kong
<b>Extension type:</b>	<a href="#">MediaWiki</a>
<b>Edition:</b>	BlueSpice pro
<b>Dependencies:</b>	MediaWiki
<b>License:</b>	<a href="#">GPL v2+</a>
<b>Activated:</b>	Yes
<b>Category:</b>	Data Analysis
