For more info, visit Mediawiki .			

Features

Semantic Result Formats (SRF) extension, used in conjunction with the [Semantic MediaWiki](#) extension, bundles a number of further result formats for SMW's inline queries. The individual formats can be added to the installation independently.

Check out the [Semantic Result Formats documentation](#) on the SMW wiki, which contains an up to date list of the formats added by SRF together with example wikitext and live demos.

This extension provides additional result formats for Semantic MediaWiki queries.

Accessibility

Test status:	2-testing complete
Checked for:	Web, Authoring tool
Last test date:	2022-08-08
WCAG level:	AA
WCAG support:	supports
