> **Note:** Support for BlueSpice 3.x ends on March 15, 2023.

Since 2010 there have been 21 releases of BlueSpice. BlueSpice replaced the product HalloWiki at that time. BlueSpice was initially a collection of extensions that could be extended by individual software packages. In 2015, all existing extensions and individual modules were combined in one distribution.[1] Delivering BlueSpice together with MediaWiki was the next logical step.

The versioning of BlueSpice follows the *Semantic Versioning Specification* at semver.org.
