## Template:BSExtensionInfobox

This is the "BSExtensionInfobox" template. Used mainly for MediaWiki extensions, but also for BlueSpice extensions that don't have a page in the AutoDoc namespace. For AutoDoc extensions, use the template BSExtensionInfo. It should be called in the following format:

```
{{BSExtensionInfobox
|desc=
|status=
|developer=
|type=
|compatible=
|edition=
|category=
|active=
|license=
|docu=
}}
```

Edit the page to see the template text.
