Templates download/Messagebox

Starting with BlueSpice 4.3, these messages boxes can be inserted as a [Content droplet](#). Therefore, importing this template is no longer necessary.

This template can be integrated into every wiki page from the editor toolbar (VisualEditor). The type of box (hint, tip, warning, etc.) can be specified as a parameter. This parameter sets the background color as well as the optional icon.

The symbol can be activated and deactivated.

 Download

 **Note:** This is a note.

 **Tip:** This is a tip.

 **Important!** This is important.

 **Warning!** This is a warning.

 **Example:** This is an example.

 This is a neutral note.

Importing the template

The import file is included in the archive file *HW-messagebox.zip*. Unpack the zip file first.

On the page *Special:Import* follow these steps:

1. **Select file** and choose *HW-messagebox.xml*.
2. **Enter** an Interwiki prefix. Since this field is required, simply add *hw* (for hallowelt).
3. **Keep** the selection *Import to default locations*.
4. **Click** Sie *Upload file...* .

The template is now available in your wiki and can be added to a page from the VisualEditor *Insert>Template* link.

Available parameters

Parameter	Description
Type of box	Determines the color of the box and the label. Allowed values (case-sensitive): note , warning , tip , important , example , success , neutral
Note text	Content of the box. Allows wikitext.
Show icon	Sets an additional icon for the box type. Default value: (empty) , Allowed value: yes
Background color	overwrites the default background color of a boxtype. Example: #ef5f5f5 (light grey) To find a color: https://www.w3schools.com/colors/colors_picker.asp

The image shows a 'Visual editor dialog for the message box'. It has a title bar with 'Cancel', 'Messagebox', and 'Apply changes' buttons. The main content area contains a message: 'There might be some additional information about the "Messagebox" template on [its page](#).' Below this are four form fields: 'Type of box *' with a value of 'note' and an asterisk; 'Show icon' with a value of 'yes'; 'Note text *' with a value of 'This is a note.' and an asterisk; and 'Background color' with a value of 'e.g. #ececce'. A 'Show options' button is at the bottom. The caption below the dialog is 'Visual editor dialog for the message box'.

Visual editor dialog for the message box

Pages included in the import

The xml import creates the following files in your wiki:

- Template:Messagebox
- Template:Messagebox/styles.css

Alignment adjustments

By default, the box is displayed in full-width. This means that it is displayed below any image that is used directly before the box.

To change this behavior to keep the box within the text-flow you can make the following change in Template:Messagebox/styles.css:

For the css-selector *.hw-messagebox*, **replace** the declaration "clear:both" with "overflow: hidden".

Before:

```
.cd-textbox {  
    ...  
    clear:both;  
}
```

Afterwards:

```
.cd-textbox {
...
overflow hidden;
}
```
